**May be harmful if swallowed. Keep away from  
heat, spark or open flame. Eye and skin irritant.  
See side panel for additional precautions and  
first aid instructions.**

**KEEP OUT OF REACH OF CHILDREN**

**Sold By:**

This all natural degreaser uses the cleaning ability of Limonene from orange peel extracts. The powerful cleaning solvent will remove heavy grease and oils from parts and equipment & even tar and asphalt & without harming most paints. The pleasant citrus odor makes it ideal for use in parts washers. It deodorizes as it works for great results in kitchen areas too!

For parts washing and equipment cleaning and general all-purpose cleaning, use as is. On heavy tar and asphalt accumulations, allow to penetrate for several minutes. For lighter cleaning, use diluted with mineral spirits or water.

This clean solvent quickly dissolves gum, wax and tar from rugs, carpets and upholstery without staining or causing obnoxious fumes.

Easily cleans and degreases concrete and masonry. The emulsifiable formula assures fast penetration of deposits & flush with a hose to wash away emulsified dirt and grease.

Helps to prepare wood or concrete floors for resurfacing & without the harmful fumes of chlorinated solvent cleaners. Do not apply undiluted directly to resilient flooring.

This natural solvent even has the power to loosen rubber carpet backing or adhesives from subflooring. Simply spray undiluted onto the residue, allow several minutes to penetrate then hose off!

To degrease and deodorize dumpsters and garbage cans, dilute up to 1:20 with warm water. In kitchen areas, use it undiluted on heavy grease and carbon build-up or add it to mop water for extra power on greasy dirt. Just add 1 to 3 ounces per gallon of warm water along with your regular detergent.

### **CAUTION - COMBUSTIBLE**

Keep away from heat, spark or open flame. May be harmful if swallowed. Eye and skin irritant. Do not take internally. Avoid contact with eyes and prolonged contact with skin. Use with adequate ventilation.

#### **FIRST AID:**

**If Swallowed:** Rinse mouth with water, then drink one glass of water. Do NOT induce vomiting. Obtain medical assistance.

**If In Eyes:** Flush with plenty of cool water for at least 15 minutes. Obtain medical assistance.

**If On Skin:** Wash with soap and water.

**If Inhaled:** Remove person to fresh air.

See MSDS for additional precautionary information.
