

Windshield deicer concentrate fights ice, frost and snow for maximum visibility, less warm-up time and safer driving. It contains special detergents to remove dirt, grime, bugs and salt residue and leaves windshields clear and streak-free. This concentrated formula allows you to choose the most economical dilution for your weather conditions – while still assuring optimum performance.

DIRECTIONS

For summer use, add 12 ounces of this deicer concentrate to clean water to make 1 gallon of washer solution.

For winter use, use the proper dilution for the temperatures in your local area. The following quantities of concentrate added to water will reduce the freezing point as shown:

TEMPERATURE DESIRED (°F.)	PARTS of CONCENTRATE	PARTS of WATER
25	1	7
12	1	3
-5	1	2
-20	1	1
-30	3	1
-60	UNDILUTED	0
